Administrator: Alicia Struck; Administrative Assistant: Kendra Stewart

Council Meeting Highlights Sept 25, 2026

Council approved the minutes of our August 21, 2026, regular meeting of council. These can be found on our website. The next regular meeting will be held on Saturday, October 31, 2026 at 10am at the Village office.

One delegate voiced concerns about trees on the green space behind their property. The concerns have been assessed and not deemed a priority at this time. The trees will be monitored by maintenance going forward.

Foreman Edward Stenko presented his verbal report. During our recent storms some large trees came down in the Village and maintenance and a rate payer took care of clean up. A golf course specialist came out to visit the course. Watch for some upgrades to the greens this spring. Our new tree survival rate is fantastic! Irrigation shut off is scheduled for October 13/14 weather dependant. Watch for more details closer to that time. ATV access on the beach washed out this August. The access has been repaired.

Revisions to the Zoning Bylaw concerning Campers was discussed. An updated proposed bylaw will be presented at a future meeting.

Council and the Administrator has asked that the Admin Assistant return to attending the monthly council meetings.

Council approved the purchase of 2 program extensions for our existing software and a laptop for remote working capabilities.

One building permit for a driveway extension was approved.

Several rate payer concerns were addressed at this meeting. Ranging from garbage usage, tree concerns, damage from trees, unauthorized tree removal and playground equipment.

Some of our poplar trees in the community are showing signs of *Conifer Poplar Rust*. This is not a huge concern but there are some steps we encourage homeowners to take to help ensure our poplars stay healthy. 1. Rake and bag fallen leaves. 2. Fertilize and water the trees to help them recover over the winter. Trees may show signs again next year but should recover with care. Young trees are more susceptible to long term damage. Thank you to one of our rate payers who brought this to our attention.

Council would like to remind rate payers to check into your insurance coverage. Our village has many trees and damage can occur. It is your responsibility to ensure you are covered appropriately.

Our council is always on the lookout to enhance our playground. If you know of a supplier offering a great deal please let us know!

Kendra will be starting work on our annual Survey questionnaire. If you have questions or concerns you would like addressed in the survey, we would love to hear it. A draft of the survey will be presented to council at the October meeting.

Alicia, Kendra and Council ask for and appreciate your patience while we navigate the transition of Administrators. We are all looking forward to making positive changes.

Reminder that office hours are now Fridays from 12-5pm. Email is monitored Monday-Friday.

I hope you are enjoying the beauty of fall in Mistusinne.

Kendra Stewart
