

CONSTRUCTION BIN ACCESS

Purpose: Due to the fact that there are ongoing construction projects on a regular basis, Council has deemed it appropriate to have two garbage bins, and that a portion of these bins can be used for construction material.

Procedures: Cabin owners or their contractors, who require access to the construction bin, are to contact Maintenance staff or the Administration Assistant prior to the date when they will need the bin. This will allow staff to make sure that there is space available for the materials and ensure that the bin is unlocked when necessary. (Note: if prior arrangements are not made, staff will attempt to facilitate the use of the bin if there are not any forthcoming requests that they are aware of.)

Staff will monitor the bin, unlock it when necessary and submit at their discretion the amount to be charged (based on Council's review rate) to the Administrative Assistant. The Administrative Assistant will invoice the cabin owner or contractor for the portion of the bin that was used for their construction waste – $\frac{1}{4}$, $\frac{1}{2}$, $\frac{3}{4}$ or full bin (or less if $\frac{1}{4}$ bin is not used).
