

STREET CLOSURE

The Mistusinne Village Council seeks to support the development of community spirit and, as such, will allow the closure of village streets for the purpose of a community event as per the following guidelines:

Permitted locations

- Double-lane street closure will be **permitted only** in front of those lots that lie on a circular loop (Sakuhikan Drive, Chekapak Crescent, Mistusinne Crescent) such that access to other lots on the loop is available by taking the other side of the loop.
- Only single-lane street closures will be permitted on straight-away locations (example – along Mistusinne Street (101-112) or along Sakuhikan Street (601-608 or 649-656)).
- The closure of the street shall be permitted only for a **specific location** (example - in front of specific lots).

Application process

- The ratepayer(s) should **make application** by contacting the Village Clerk to arrange permission for the street closure.
- The applicant should state the purpose of the closure (example – street dance as part of a family reunion).

Conditions for Permit

- The closure of the street shall be permitted only for **specific hours** to a maximum of four hours.
- The applicant will be required to adhere to the provisions of **Bylaw 04-86** that prohibits noise that “detracts from the comfort, repose, health, peace or safety of other persons within the limits of the Village ... after 10:00 p.m.”
- The applicant will be reminded to use caution with regards to open pit fires (in a fireproof enclosure with a water source nearby).
- The street and adjoining ditches must be left in the same condition as before the function.

Other arrangements

- It shall be the responsibility of the host to erect the necessary barricades or colored ribbon to delineate the area in question.
- On the day of the street closure, the host will arrange for the posting of a sign using the Village sandwich board at the intersection of the loop, as per the attached sample.
- The sandwich sign will be returned to the Village office after the function.
